Crème Nuit Clarté

Located in the foothills of the Swiss Alps, **La Colline Research Laboratories** has built a reputation for its technical skills in oxygenation and cell renewal. Its development conforms to stringent requirements and great accuracy, with the exclusive **CMAGE®** as the key element. As the secret to well-moisturized, protected, glowing skin, it is the very essence of La Colline beauty care. The **CELL WHITE** range is a specifically targeted programme, specially developed to combat pigmentation spots that cause an uneven complexion. The eight formulae making up this beauty ritual help the skin to regain its natural bloom with a more luminous, even skin tone.

The **CELL WHITE** programme features a unique formula base:

- Stabilized **Vitamin C**: Leverages its anti-oxidant powers to tackle hyperpigmentation.
- **LUX-Factor**: A soya-cress combination. These two natural extracts provide dual anti-spot action. Together, they correct pigmentation spots by curbing the production of:
 - Melanin and lipofuscin (pigments responsible for skin tone)
 - Tyrosine kinase (an enzyme that contributes to the appearance of age spots)
- An **AHA** duo (lemon and grapefruit extracts): Combined, these fruit acids help to exfoliate the skin, removing dead cells and fostering skin renewal.
- **CMAGE®**: La Colline's signature complex which activates vital cell functions: Moisturizing, oxygenation and protection to preserve a youthful appearance.

Radiance Cleansing Milk

Lightening Milk Cleanser

This light creamy milk gently removes makeup and everyday grime. Its active ingredients exert a lightening effect, ensuring a more even tone right from the first use.

*Morning and night, apply in gentle circular motion to the face and neck, avoiding the eye contours. Remove excess with slightly dampened cotton pads and finalize with **Radiance Softening Lotion**.*

Radiance Softening Lotion

Toning & Lightening Lotion

Mallow's softening properties and **Arnica's** soothing effect serve as a prelude to the care ritual. This lotion lightens complexion, readying skin for the next step. It regains luminosity and fresh appeal.

*Morning and night, apply to the thoroughly cleansed face and neck after **Radiance Cleansing Milk**.*

White Protector SPF 25

Lightening Protective Fluid

External factors such as pollution and UV rays help age spots to spread by activating the production of melanin. This emulsion harnesses the lightening powers of **Vitamin C** with those of **Artemisia**, which boasts high anti-oxidant content, to prevent the onset of these spots.

The combination of **UVA/UVB** filters and anti-oxidants helps to fight free radicals, which are responsible for skin aging. It provides daily preventive protection to reveal a more luminous complexion and soft supple skin.*

*Apply every morning after **White C Serum** to the thoroughly cleansed face and neck, avoiding the eye contours.*

Absolute White Mask

Lightening Anti-Aging Mask

Bringing a bright and bonny look, **Absolute White Mask** helps make the skin gleam and feel smooth. With every use, the **fruit acids** brighten up the skin, bringing forth an even complexion. **Vitamin B5** ensures the skin is properly moisturized, making it bright and supple.

LUX-Factor, the intelligent La Colline complex, targets on pigmentation spots for a more even complexion.

Together, **CMAGE®** and **Vitamin E** boost cell renewal for skin to regain an invigorated look. *Apply a medium-thick layer one to three times per week to the thoroughly cleansed face and neck, avoiding the eye contours. Leave on for 10 to 15 minutes, then rinse off using a cotton pad soaked with **Radiance Softening Lotion**.*

Anti-Spot White Corrector

Specific Corrective Care

Its formula has been designed to boost Serum and Cream action specifically targeting spots. With each use, its light texture melts into the skin to attenuate dark spots.

*Morning and night, apply to dark spots and pigmentation irregularities after **White C Serum** and before **Absolute White Day Cream/White Protector SPF25** or **Absolute White Night Cream**.*

White C Serum

Lightening Anti-Aging Serum

A luminosity concentrate, this firming serum boasts a gel texture that contains:

Vitamin C leverages its anti-oxidant powers to tackle hyperpigmentation.

Vitamin B5 ensures the skin is properly moisturised, making it bright and supple.

LUX-Factor, the intelligent La Colline complex, targets on pigmentation spots for a more even complexion.**

*In the morning, apply to the face and neck before **Absolute White Day Cream** or **White Protector SPF25**, and at night before **Absolute White Night Cream**.*

Absolute White Day Cream

Lightening Anti-Aging Day Cream

This light day cream helps the skin gleam thanks to **LUX-Factor** targeting at spots, and **Vitamin C** that lightens complexion. The skin is moisturized, protected and oxygenated with the **CMAGE® Complex** which activates vital cell functions. Day after day the complexion brightens and evens out.**

*Apply every morning to the face and neck after thorough cleansing. For optimal effects, apply **White C Serum** before the cream.*

Absolute White Night Cream

Lightening Anti-Aging Night Cream

This smooth night cream nourishes and lightens the skin thanks to the concentrated **LUX-Factor**, helping to attenuate age spots night after night. **Sweet almond** and **Shea butter** make the skin supple, soft and smooth. In the morning, the complexion evens out and brightens up.**

*Apply every night to the face and neck after thorough cleansing and make-up removal. For optimal effects, apply **White C Serum** before the cream.*

We at La Colline Laboratories thank you for the confidence you have shown in us. To find out more about the performances of the products that are best for your skin, feel free to ask your La Colline beauty consultant for advice.

* This is not a sun care product.

** Self-assessment by 20 volunteers aged 40 to 65, after using White C Serum, Absolute White Day Cream and Absolute White Night Cream in their daily skincare routine for 28 days.
