From its headquarters in the foothills of the Swiss Alps, a natural setting of rare purity, La Colline Cellular Research Laboratories has built a reputation for excellence in the science of turning back the cellular clock. The **CMAcE® Complex** - the secret of thoroughly hydrated, protected and radiant skin - is the core ingredient in all of La Colline's anti-aging products.

Because the skin around the eyes is especially vulnerable to the effects of aging, La Colline has developed **EYE PERFORMANCE** - an expert skincare line created especially for this delicate zone.

This complete line of products, distilling all of La Colline's expertise and advanced technology, is designed to ensure comfortable application and targeted results. Each product's unique formulation is specially designed to treat a specific problem, whether dark circles, bags, dark spots, wrinkles and fine lines or loss of radiance. The Eye Performance line offers a range of products that may be combined for a complete, personalized skincare routine.

Cellular Eye Contour Definition

Anti-Aging, Firming Emulsion

Research into the primary signs of dull and tired eyes (sagging skin around the eyes, lack of elasticity, wrinkles and fine lines, drooping eyelids) has led La Colline Cellular Research Laboratories to develop a complex new formulation for the **Cellular Eye Contour Definition**.

Its active ingredient, **Eye Dense Complex**, combines tri-peptide action with botanical extracts to restructure supporting tissues, provide lifting and prevent drooping eyelids.

The **CMAcE® Complex** boosts hydration, protection and enhances the formula's anti-aging effect. Results are immediately visible thanks to **3D Eye Technology**, a glucan biopolymer that acts quickly to smooth, lift and tone.

This silky moisturizing emulsion smoothes the skin of the upper eyelid. The applicator, featuring a zamak tip, is carefully designed to ensure easy and targeted application to each part of the eye contour area.

Cellular Eye Contour Definition works to firm the skin around the eyes. Wrinkles and fine lines are minimized, eyelids are smoothed and lifted. Eyes are refreshed and regain a sharper look, with more radiant, supple and youthful skin.

Press down gently on the dosing button to dispense the necessary amount onto the zamak tip. Apply directly to the skin around the eyes and to the eyelids, moving from the base upwards and from the inner to the outer corners of the eyes, using a gentle circular motion. Apply morning and/or evening after cleansing/makeup removal. Can be used in combination with other EYE PERFORMANCE products.

Cellular Eye Contour Definition Night

Anti-sagging Nighttime Skin Care

For a brighter look after waking up, **Cellular Eye Contour Definition** is also available in a **nighttime version**.

Offering the entire efficacy of the **Eye Dense Complex** and **CMAcE®**, this enveloping cream acts throughout the night, the key moment of cellular regeneration, thanks to its complex formula enriched with biotechnological stem cells. Originated from a Swiss natural miracle: **Uttwiler Spätlauber**; a rare variety of apple renowned for its long lifespan since the 18th century, these stem cells transmit particular regenerating properties to the cutaneous cells as a bestowal of vitality and longevity.

Morning after morning, the eyes look brighter, more relaxed and regenerated, as if rejuvenated. *Apply every evening after removing makeup, with circular movements over the eye contours with the Zamak application tip.*

Cellular Eye Lift Essence

Smoothing and Firming Treatment

Applied prior to other Eye Contour treatment, this serum provides a smoothing and toning effect to the eye contour area thanks to hibiscus extract.

Cellular Vital Eye Gel

Anti-Fatigue Gel

This cooling gel is designed to treat congestion and fatigue in the area around the eyes. Its soothing and toning botanical extracts (cornflower, rose, mallow and St. John's wort) help reduce bags and puffy eyelids.

Cellular Vital Eye Cream

Anti-Aging Treatment

This anti-aging and moisturizing treatment combines the gentleness of botanical extracts (rose, mallow and St. John's wort) with the soothing comfort of shea butter and jojoba oil.

Cellular Absolute Radiance Eye Cream

Skin-Lightening Eye Treatment

This cream's synergistic blend of active ingredients – witch hazel and a patented peptide complex – tones down the bluish colour of dark circles. Its formula also contains ingredients that work to minimize dark circles and pigmentation spots.

Cellular Vital Eye Mask

Anti-Aging Eye Mask

This cream mask protects the skin around the eyes against everyday stress factors and provides immediate renewed radiance. Its refreshing formula contains botanical extracts from soothing plants (rose water and cornflower).

We at La Colline Cellular Research Laboratories thank you for your confidence in us. To find out more about the performances of the products best suited to your skin needs, feel free to inquire with your La Colline beauty consultant.
