www.lacolline-skincare.com

Located in the foothills of the Swiss Alps, La Colline Cellular Research Laboratories has built a reputation for its technical skills in oxygenation and cell renewal. Its development conforms to stringent requirements and great accuracy, with the exclusive **CMAGE®** as the key element. As the secret to well-moisturized, protected, glowing skin, it is the very essence of La Colline beauty care.

The **Matrix R³ Collection** has been specifically developed to address the problem of fine lines and wrinkles. With **R³ Peptixyl Complex** rich in targeted ingredients, the solution is three-dimensional:

- **Messenger peptides**, combined with a plant extract, to strengthen the skin's repair mechanisms
- **Hyaluronic Acid Microspheres** for their capacity to hold water in the skin, reducing fine lines and wrinkles on the surface
- A biopolymer of **Sweet Almond** proteins to form a firming film to smooth the skin, thanks to its high molecular weight

Cellular Matrix Serum - Cellular Matrix Cream - Cellular Rich Matrix Cream

The **Matrix R³** ritual immediately smoothes the skin after the application of Serum and Creams, reducing fine lines and wrinkles.

After 28 days of twice-daily application, skin is plump, hydrated and smooth. It feels comfortable again, recovers its density and is better protected against external aggressions.¹

Cellular Matrix Serum

With a fine melting texture, **Cellular Matrix Serum** offers the highest concentration of **Hyaluronic Acid** in the **Matrix R³ Collection**, acting as an anti-wrinkle booster. Skin is soft with radiant complexion.¹

*Apply morning and evening to the face and neck before **Cellular Matrix Cream** or **Cellular Rich Matrix Cream**.*

Cellular Matrix Cream

This silky, comfortable cream combats fine lines and wrinkles with its **R³ Peptixyl Complex**, which strengthens the skin's repair mechanisms.

*Apply morning and evening to the face and neck after **Cellular Matrix Serum**.*

Cellular Rich Matrix Cream

This nourishing cream, specially developed for dry skin or skin exposed to cold dry climates, combats fine lines and wrinkles with its **R³ Peptixyl Complex**, which strengthens the skin's repair mechanisms.

Enriched with **Rosehip** and **Borage Oils** for their high levels of essential fatty acids, this cream offers intense comfort and a nourishing film on the skin, relieving the tightness.¹

*Apply morning and evening to the face and neck after **Cellular Matrix Serum**.*

Cellular Matrix Mask

Cellular Matrix Mask combines peptides from the **R³ Peptixyl Complex** with the **Mesh R³ Complex**. An invisible three-dimensional mesh of **Hyaluronic Acid**, **Brown Seaweed** and a **Plant Polysaccharide**, together with a combination of recognized hydrating ingredients (**glycerine, amino acid, trehalose and urea**), this mesh provides intense long-lasting hydration.² Wrinkles are reduced in length and surface area³, leaving skin smoother and plumper. After application, the complexion is more radiant, the skin texture is refined and skin appears rested: skin is revitalized.⁴

*Apply a thick layer with the brush 2 to 3 times per week and leave on for 15 minutes. Then rinse with a cotton pad soaked with **Cellular Bio-Soothing Tonic**.*

From time to time, apply a thin layer to the face and leave to act overnight.

For sensitive skin, a thin layer is advised. In case of discomfort or tingling, rinse thoroughly with water.

We at La Colline Laboratories thank you for the confidence you have shown in us. To find out more about the performances of the products that are best for your skin, feel free to ask your La Colline beauty consultant for advice.

1 Use test on 20 volunteers over 28 days (application of Cellular Matrix Serum both day and night, Cellular Matrix Cream for the day and Cellular Rich Matrix Cream for the night).

2 Hydration test conducted on 10 volunteers over 3 hours.

3 Effectiveness test conducted on 20 volunteers over 28 days.

4 Use test conducted on 32 volunteers over 28 days.
