La Colline Cleansing Ritual - Cellular Bio-Cleansing Milk Protocole de démaquillage La Colline - Lait Démaquillant Bio-Cellulaire

Located in the foothills of the Swiss Alps, **La Colline Research Laboratories** has built a reputation for its technical skills in oxygenation and cell renewal.

Its development conforms to stringent requirements and great accuracy, with the exclusive **CMAce®** as the key element. As the secret to well-moisturized, protected, glowing skin, it is the very essence of La Colline beauty care.

Make-up removal, cleansing and toning are daily essential steps to beautiful skin. These steps are fundamental to clean, clear and make skin available to the subsequent skincare. La Colline combines **CMAce®** with **Plantago**, an organic vegetal extract with soothing and anti-oxidizing properties. Plantago offers comfort and softens while delaying the signs of aging.
