

LIP SHAPER

Lip and Contour Remodelling Care
Soin Remodelant Lèvres et Contours

Located in the foothills of the Swiss Alps, La Colline Research Laboratories has built a reputation for its technical skills in oxygenation and cell renewal. Its development conforms to stringent requirements and great accuracy, with the exclusive **CMAGE**[®] as the key element. As the secret to well-moisturized, protected, glowing skin, it is the very essence of La Colline beauty care.

The lip zone is a face area which is particularly fragile, subjected to many daily moves. La Colline has developed a skincare to smooth this zone while offering an immediate comfort.

This formula contains ingredients selected to respond precise problems:

- Comfort, suppleness and nutrition: The combination of shea butter, mango and coconut oil
- Smooth and repair: **Lipulp**, a complex composed of amino acids, that stimulates collagen production

Day after day, the lips are smoother, more supple, as repaired*.

Application

Apply one pump dose of **LIP SHAPER** to the ring finger. With the mouth slightly open, stretch the lips to make them smoother and facilitate the application.

1/ Apply small dabs of the cream around the lip contour, and then in the middle of the upper and lower lips.

2/ Use the ring finger to smooth the dabs together. Starting from the middle of the upper lip contour, smooth outwards to the corner of the mouth, then along the contour of the lower lip and back to the starting point. Repeat on the lips themselves.

3/ Massage the lip contour in circular motion, then repeat on the upper and lower lips.

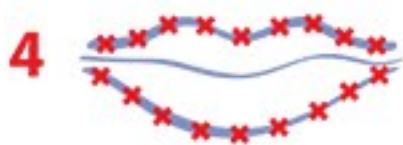

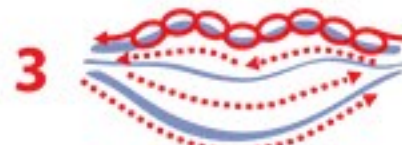

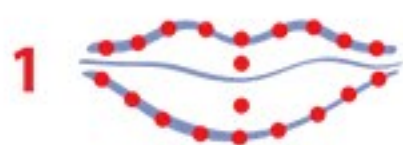

4/ Using the thumb and index finger, massage the lip contour with narrow vertical pinching movements.

5/ Follow with wider vertical pinching movements on the upper and lower lips.

6/ Finish by smoothing with the ring finger, first the lip contour and then the lips.

Lipstick can be applied a few seconds after the application of the cream.

For a quick beauty refresher at any time of the day, apply **LIP SHAPER** by gently smoothing it over the lips and their contour.

* Clinical study made on 20 women with daily use for 28 days.
